

SHS Rewards

Getting straight to the points!

“The Greater the Effort, the Sweeter the Reward”.

Rewards are changing.....

- Students will be rewarded for their CARE.
- We want our students to VALUE their efforts and achievements.
- We want our students to feel rewarded by:
 - ➔ Supporting each other, the school and the wider community,
 - ➔ By aspiring to be the best that they can be,
 - ➔ By learning not to give up,
 - ➔ By taking responsibility for their own learning.

Getting straight to the points!

HOW IT WORKS:

- ➔ Linked to the CARE curriculum and extra-curricular attendance'
- ➔ Students get a certain amount of points for certain achievements, E.G. attending an extracurricular club, doing community service.
- ➔ **Students can earn Community/Aspiration/Resilience/Education points in lesson and at social times.**
- ➔ **Teaching and support staff will be able to award one point each for CARE per lesson (E.G. ONE student receives the point for community, one student receives the point for aspiration, one student receives the point for resilience and one students receives the point for education.**
- ➔ **All staff will be able to award one point each for CARE during social times (E.G. ONE student receives the point for community, one student receives the point for aspiration, one student receives the point for resilience and one students receives the point for education. Staff do not have to award their CARE points during social times everyday.**
- ➔ Students must apply to receive an award and do this through their LT by filling in an [evidence sheet](#). Students can apply whenever they have enough points for a bronze, silver, gold or platinum award. LT's should notify HOY/AHOY of this.
- ➔ For a student to be eligible for the end of year trips, they must have secured the Bronze award. If this has not been achieved due unavoidable circumstances, Mrs Doward will consider this.
